- 2 -

- 6. The former cavalry barracks was occupied by an armored unit consisting of about 1,200 men, having black insignia with red trim.
 - a. On the field belonging to these barracks, 9 Stalin III tanks and 30 R-34 tanks were parked.
 - b. It has also been observed that during exercises the men rode the tanks to the center of the field and then jumped off while the tanks were proceeding at top speed.
- 7. The former artillery barracks on Parragvari Street was occupied by an artillery regiment, which had a strength of 1,200 men.
 - a. About twelve 120 mm guns were observed in the courtyard, and an additional number of guns were observed in the garage.
 - b. In the rear courtyard there were 35 prime movers, half of them "Stalinets" track-laying vehicles and the other half consisting of tractor; similar to the Hungarian "Hofher" type.
 - c. Ten light trucks were also parked here;
- 8. The two buildings formerly used as a gendarmery school housed at the time of observation an armored unit of about 700 men. The following vehicles were parked in the courtyard: about 24 T/34 tanks, 10 armored vehicles, and 8

 light trucks

 25X1
- 9. The parking area for tanks located in the Herines gardens was occupied by 40 T-34 tanks and 30 Stalin III tanks. The area was surrounded by a barbed wire enclosure 3 meters high and was guarded by soldiers with black insignia, trimmed with red.
- 10. In the Milleneum gardens there were about 35 T-34 and Stalin III camouflaged tanks.
- 11. The Halladas playing field was used as a parking area for about 45 tank, both T-34 and Stalin III, as well as for 12 SU100 pieces. All of them were camouflaged.
- 12. The Szent Istvån park was used as a parking area for light trucks and for amored trucks, but not for tanks. There were about 100 light trucks with a 3½ ton capacity and about 25 armored trucks.
- The water tower of the city has been converted by the Soviets into a gasoline tank. It was surrounded by barbed wire for a perimeter of about 60 meters and the access to the tower was barred by a wooden barrier. All around the tower there were gasoline drums, each with a capacity of 200 liters. The drums were divided into three groups; one them, in the form of pyramid, contained more than 200 drums full of gasoline. In this area there were 6 gasoline trucks, with a capacity of 3,500 liters each and also 3 electric pumps.
- 14. In the Fahedy high school there was a Soviet field hospital utilizing Hungarian equipment.
